Wolters Kluwer

Software Development Intern

Are you a highly motivated **student in the final year, interested to develop your technical skills being part of a software development team?** Then join our internship program!
The internship will have a duration of **3 months, starting May 2018 with flexible working time** (4-8 hours/day), depending on your availability. This is a **paid internship for students in the final year of study at a technical specialization.**

About Wolters Kluwer Financial Services

Wolters Kluwer Financial Services works with customers worldwide to help them successfully navigate regulatory complexity, optimize risk and financial performance, and manage data to support critical decisions. Through our **Regulatory Reporting Application,** the financial organizations automate and make more efficient and effective the reporting activity.

What a Software Developer does?

A Software Developer plays a key role in developing the requested functionality having high quality and respecting deadlines, following the agreed procedures & conventions. A Software Developer needs to focus on quality and performance and be involved in the maintenance and improvement process of the software.

What will you acquire during the internship?

- ✓ You will improve your Java knowledge
- ✓ You will improve your Oracle and/or Microsoft SQL Server knowledge
- ✓ You will learn how to be Agile, being part of a Scrum team
- ✓ You will learn how to work in a team having team members in multiple locations
- ✓ You will learn how to be a team player and how to communicate efficiently

What will you find at Wolters Kluwer Financial Services?

- ✓ A great team, open-minded and funny colleagues
- ✓ A fresh and friendly work environment in a business hub in Cluj-Napoca
- ✓ A good selection of games in a modern *Games room* ☺
- ✓ Fruits, coffee and tea

How to apply: Please send your application to Roxana Muresan (Roxana.Muresan@wolterskluwer.com). **Deadline: 9th of April 2018.**
