

# WE ARE HIRING

# JUNIOR FINANCIAL CONTROLLER

## JOB DESCRIPTION

The role will provide relevant and accurate financial data for the management to enable profitability assessments of various projects. The main focus of the role will be controlling and reporting with applied critical thinking to interpret the data at hand. The role will also include occasional ad-hoc business support activities.

### Transaction Management:

- Ensure that all the company's financial transactions are identified, understood and classified
- Review recorded financial transactions to ensure consistency and integrity of information
- Understand the nature of products and services from vendors
- Ensure that pending vendor payments are reviewed, approved and paid as due

### Reporting Activities:

- Run the recurring management reports ensuring on-time delivery as well as data quality in all
- Prepare on-demand reports ensuring a good understanding of the purpose of such reports
- Support decision-making by enhancing reports with relevant qualitative comments and analysis
