

SQL Developer (m/f/x)

Your job

- As part of our team of SQL Developers, you are one of the **go-to persons for our customers and consultants**. You help them efficiently configure planning solutions.
- You take **ownership** of your work: you assess the problem, solve incidents independently or in your team (pair programming) and discuss the solution with the customer or consultant.
- You **maintain** and further **develop** existing code to ensure stability and performance for various customer server environments.
- You write new scripts and set up new processes to help our customers grow. You manage **different SQL Server databases** and monitor system's health and performance.
- Data analysis, building insightful reports and **learning about Supply Chain processes** really spark your interest.

Your profile

- You graduated with a Bachelor or Master Degree (preferably in IT or Engineering)
- You have solid knowledge of and hands-on experience in **SQL Server** (tables, views, complex queries).
- You have a strong **technical background** that allows you to be involved in a variety of tasks.
- You master technical ICT language but also **connect easily to business** stakeholders.
- You are a true team player and **love to help**, from coaching business consultants in the correct use of SQL to supporting customers in the effective use of their planning solutions.
- You are **analytical and result-oriented**, you think in solutions rather than problems.
- You are a quick learner, able to work independently and handle **responsibility** well.
- You have excellent communication skills (in English).

Working at Solventure is striving for the best, together, every day!

Our offer

- **“More-than-just-a-job”** in an ambitious scale-up, characterized by an openminded, transparent and caring culture
- Lots of **autonomy** and the opportunity to actively contribute to the growth of our business
- A stimulating environment with lots of training and **development opportunities**
- A young and dynamic setting, combining hard work with **fun & interaction**
- A **competitive salary**
- The flexibility to work from anywhere in Europe (with regular travel to our HQ in Ghent – Belgium)

Looking forward to meeting you! Apply online or email your resume to leentje.claeys@solventure.eu
